🔗 LeetCode | 🏠 Codeforces

Education

Indian Institute of Information Technology, Sri City

B.Tech. in Computer Science and Engineering — CGPA: 8.31

Sri City, AP

Aug. 2023 – June 2027

Kendriya Vidyalaya, Seoni Malwa

Class XII - CBSE — Percentage: 90.2%

Madhya Pradesh

May 2020 – April 2022

Achievements

ICPC Asia West Regionalist '25 – Qualified and competed at the prestigious ICPC Asia West Regional Contest.

Specialist on Codeforces (**1422**), handle: **siddnt** – Solved **300+** problems. Best Ranks: **Rank 535** (Round 1050 Div. 4), **Rank 1804** (Round 1051 Div. 2).

Knight on LeetCode (**1968 – Top 2.97%**), handle: **siddnt** – Solved **500+** problems. Best Ranks: **598** (Weekly 478), **1845** (Weekly 481), **1896** (Biweekly 168).

Secured **Rank 3387** in **IICPC CodeFest 2026 Global Prelims** among 13,000+ participants, placing in the top rankers nationwide.

Secured **2nd Position** in **RECURSIA**, an offline DSA coding contest by the Gradient Club at IIIT Sri City.

Projects

FitSync | React, Redux Toolkit, Node.js, Express, MongoDB, Stripe

Aug. 2025 – Dec. 2025

- Architected a scalable **Multi-Tenant SaaS** platform handling **50+ RESTful API endpoints** and **12 complex MongoDB models**, serving 6 distinct user roles via granular **Role-Based Access Control (RBAC)**.
- Engineered a robust monetization engine using **Stripe Connect** for subscription billing and invoice generation, ensuring 100% transactional integrity for gym memberships and marketplace sales.
- Developed a real-time analytics suite across **15+ dashboard endpoints**, utilizing advanced **MongoDB Aggregation Pipelines** to calculate revenue trends and memberships, reducing report generation latency by 40%.
- Integrated a complete e-commerce marketplace with inventory management and order fulfillment workflows, supported by **Cloudinary** for optimized media delivery and **JWT** for secure stateless authentication.

Streamstem Backend API | Node.js, Express.js, MongoDB, JWT

Mar. 2025 – May 2025

- Architected a scalable video-sharing backend supporting core features like video uploads, playlists, likes, and nested comments.
- Leveraged MongoDB Aggregation Pipelines (**\$lookup**, **\$addFields**) to join complex data sets (videos + creator profiles + like counts) in single queries, reducing database round-trips by 40%.
- Implemented robust authentication using Access and Refresh Tokens via JWT and HTTP-only cookies, securing the API against common vulnerabilities like XSS.
- Optimized media handling by integrating cloud storage services, ensuring efficient file retrieval and storage management for large video files.

Anon – Anonymous Messaging App | Next.js, NextAuth, Tailwind CSS

Feb. 2025 – April 2025

- Built a privacy-focused messaging application using Next.js, enabling users to receive and manage anonymous feedback through secure public links.
- Integrated AI-driven message generation to provide users with smart suggestions and prompts for sending creative anonymous messages, boosting user engagement.

Technical Skills

Languages: C, C++, Java, JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, JWT Authentication, NextAuth

Databases & Tools: MongoDB, PostgreSQL, Git/GitHub, Postman, Vercel

Relevant Coursework

Mathematics: Discrete Structures, Probability & Statistics, Linear Algebra, Calculus

Computer Science: Data Structures & Algorithms, Operating System, Computer Networks, DBMS, OOPS
